

MEMBER OF THE STATE ASSEMBLY, 72ND DISTRICT

LYNN DAUCHER

AGE: 58

OCCUPATION: Assembly Woman, 72nd District

I have joined Governor Schwarzenegger's efforts to move California forward. Together, we have worked to control government spending, balance the budget, and build a rainy day reserve without tax increases.

Governor Schwarzenegger and I have teamed up this session on a number of important issues, including:

The repeal of the car tax and the flawed law that gave driver's licenses to illegal aliens.

The enactment of reform to California's dysfunctional workers' compensation system and the revision of the ill-conceived "Sue Your Boss" law that encourages frivolous lawsuits at the expense of small business owners.

The provision of more school equalization funding, which will provide badly needed classroom dollars for Orange County's chronically under-funded school districts.

The passage of my legislation to prevent school bankruptcies by demanding greater fiscal accountability for local school budgeting.

In addition, I have worked hard to save taxpayers millions of dollars by:

Shining a spot light on the previous Administration's gross mismanagement of state government contracts.

Voting to eliminate ineffective and outdated state bureaucracies.

Authoring legislation to enable seniors and disabled Californians to continue living independently in their own homes, rather than being forced into more costly nursing homes.

For these reasons, Governor Schwarzenegger has endorsed me for reelection to the State Assembly. With your help, I will continue to work with Governor Schwarzenegger on your behalf to clean up the fiscal mess of the last five years and to enhance opportunities for all Californians.
